Featured Projects

Changmo's Magic Land | jQuery, HTML5, SCSS |

<https://changmosung.github.io/changmoSungProjectThree/>

Created a memory game where users click on each card to match and see the number of attempts and matches. Uses JavaScript for dynamic moves and HTML5 and SCSS for user interface.

Changmo's Smiley Magic | React, Firebase, JavaScript |

<https://changmosung.github.io/changmoSungReactProjectFive/>

Developed a social platform where users log in and upload photos and videos with an extra feature to add journal that shares feelings. Uses React and Firebase to store and retrieve files based on what users need.

Accomplishment

- Representative of Seoul, the capital of Korea for 7 years
- The fastest 800m runner in Seoul history (800m record holder)
- The most impressive speech award from International Youth Fellowship
- A founding member of Pocheon City Hall athlete team
